

NEW

Terra Spike GXi™

Deliberately compact yet remarkably robust, the patented Terra Spike GXi™ is ideal for use on fine turf and a variety of sports surfaces. The new Terra Spike™, GXi 6 has TwinDrive and can cover up to 4500m²/hour (theoretical). The machine fits to most compact tractors from 25HP.

Terra Spike™ standard features

Advance Tine Control: The latest system for smooth and fast operation

Vibra Stop: A key safety benefit to the operator, this is an integrated shock absorbing system which absorbs vibration

TwinDrive: The continuous crankshaft is driven from both sides by multi ribbed V belts delivering smooth power transmission from the tractor. The maintenance-free encapsulated drive is dust and dirt-proof. Twin Drive can be configured with various transmission ratios allowing the crankshaft speed to be adapted optimally to the available tractor power

Quick Set Heave: Achieves a class leading 25° heave range. A simple, central and 'tool free' adjustment gives infinite heave setting between 90° and 65°

Quick Set Depth: Accurately set depths, regardless of which length of tine is fitted, just make one simple, central and 'tool free' adjustment

Power Pack: A central power pack helps to protect the tines from damage in extreme stony or hard conditions

Quick Fit: An integrated tine mounting and extraction system

The Terra Spike GXi™ includes PTO slip clutch, linkage pins, a parking stand system, safety guards and first set of 12mm diameter tines.

422 00 40 **Terra Spike™ GXi6** 1.4m working width

122 20 27 **Floating rear roller system**

122 20 14 **Lower link extension kit**

NOTE Please specify at time of order desired crank speed 385 or 485 rpm.
Please note when fitting to smaller compact tractors a lower link extension might be required. Please check with our technical sales team.
